linkedin.com/in/khanna17 in

Results-driven Front-End Developer with 2 years of experience, including hands-on work in full-stack development. Proficient in front-end technologies (HTML, CSS, JavaScript, Angular, React) and with experience in back-end technologies (.NET, Python, SQL). Seeking a role to apply front-end expertise and contribute to full-stack development projects.

WORK EXPERIENCE

Application Development Analyst
Accenture

11/2021 - Present

Achievements/Tasks

- Played a key role in developing end-to-end solutions using a comprehensive tech stack, including AngularJS for front-end development, .NET for the backend, Microsoft SQL for database management, and Azure Functions for serverless computing.
- Collaborated with cross-functional teams to design and implement robust and scalable architectures, resulting in 30% improvement in user interface responsiveness and a 15% increase in user engagement.
- Conducted code reviews and implemented best practices to maintain high code quality and security standards.
- Collaborated with the UX/UI design team to implement a redesign of the user interface, leading to a 40% increase in user satisfaction ratings.

Intern
TechCiti Software Consulting Private Limited

12/2020 - 01/2021

Achievements/Tasks

- Developed a feature rich ToDo list application using Python and Django, incorporating functionalities such as task prioritization, deadline tracking, and user authentication.
- Implemented a URL shortener within the application, enhancing user experience by providing concise links to individual tasks and lists.
- Gained valuable experience in the complete software development lifecycle, from project planning to deployment.

EDUCATION

Bachelor of Engineering
Visvesvaraya Technological University

08/2017 - 08/2021

Courses
- Computer Science and Engineering

Pre University - PCMB
SBMJ INDP PU College

05/2015 - 05/2017

SKILLS

Angular JS · React JS · HTML · CSS · Bootstrap · JavaScript · TypeScript · GIT · Node JS · RDBMS · Python · DotNet · Express JS

PERSONAL PROJECTS

Portfolio Website (11/2023 - Present)
- Developed a personal portfolio website using React.js, HTML, and CSS. Showcasing my skills, projects, and professional experience, the site features a clean, responsive design for an optimal user experience

Pizza Ordering Website (11/2021 - 01/2022)
- Built a dynamic pizza ordering website with user authentication using AngularJS, Node.js, Express, and MongoDB. Users can customize pizza orders, creating a seamless and enjoyable experience. The backend ensures efficient order management.

BMI Calculator (11/2023 - 11/2023)
- Created a straightforward BMI calculator using JavaScript, HTML, and CSS. The minimalist design ensures user-friendly health tracking, providing individuals with an easy-to-use tool for monitoring their Body Mass Index.

CERTIFICATIONS

Learn JavaScript Basics (10/2023 - 12/2023)
Mastered JavaScript fundamentals with codeDamn—covering variables, loops, functions, and DOM manipulation for robust web development.

Responsive Web Design (01/2022 - 04/2022)
freecodecamp.org-certified in Responsive Web Design, adept in CSS Flexbox, CSS Grid, and media queries for optimal user experiences.

Python Bootcamp Certificate (01/2022 - 07/2022)
Udemy-certified in Python Bootcamp—comprehensive training in data structures, object-oriented programming, and practical Python applications.
